ETHOS

PRIVATE EQUITY

Ethos – the vehicle for Tiger Automotive's growth

Ethos has led the R1.05 billion buyout of Tiger Automotive (TiAuto). The transaction will facilitate greater management participation in equity ownership and encourage the executive team to focus on significantly building the business. TiAuto's strong and experienced leadership team is complemented by Ethos' strategic expertise and ability to facilitate growth.

TiAuto holds a substantial share of the wheel and tyre retail and wholesale market in Southern Africa, and is expected to benefit from a burgeoning middle class and growth prospects for aftermarket sales.

This transaction is the seventh investment in Fund V and enhances the diversification of our portfolio, demonstrating the positive role private equity can play in helping sound companies to facilitate growth, investment and employment.

We didn't invent the wheel – we're just helping TiAuto to perfect it.
